5150 Havana Street, Unit F
Denver, Colorado 80239

Dear CoCat:

Please accept my compliments for the supportive role you played in Loveland Fire and Rescues - Special Operations 2011 Team training. It is because of your support in supplying all the necessary materials that we were able to successfully complete a full days training on skills refresher for building collapse techniques and three operational work periods for a full scale building collapse scenario. Without the support of companies like yours the success of special operations teams like ours would not be as effective and provide the necessary response to our community and surrounding communities.

You demonstrated the leadership style that other companies rarely do. Your willingness to participate has made this core group of specialists operational at every level.

Thank you for giving your time and financial support. It will pay off in a big way.
